

TAITO

Not Men, Not Turtles, They're Puppet Kids!

TAITO

THE NINJA KIDS™

New Ninja Heroes Take the Stage!

A Ninja Action Game that allows simultaneous play by four players (when using four game units). The heroes are: four Ninja Puppets... Hanzo, Iwako, Akane and Genta... each of whom has his own special weapons and Ninja powers to help him advance while defeating the evil coming from behind. The screen features improved depth and smooth flow movement for double the excitement. The keys and the 2 buttons have been designed for maximum ease of use. A variety of special attacks with sophisticated timing adds up for incredible action and excitement.

The Ninjas in this game are not perfect heroes. They're all hybridists who are sometimes a little slow on the stage. That means they can sometimes get flattened, thrown around or burnt to a crisp when landing on their adversaries. There are also lots of fascinating game items including floating scrolls that increase Ninja powers when picked up, cursed foods and wine that restore the Ninja's life powers, and special jewels that make them invulnerable.

There's a new type of game in which the heroes are ready to fight to the bitter end until they defeat the dragon, even when the going gets pretty tough.

Can be played by four players using four
...Game Controller

START The town has become a battlefield for the sake of the dragon.

Taunt! The village people are on our side!

Use of the scroll has been turned into a weapon.

Round 2: Attack! The village people are on our side!

Round 3: Master! Master! Master! Master! Master!

Round 1: Akane, the Red Ninja, with his special fire attack.

That is a great one! The end has a picture.

Press button A and B to use Ninja skills.

Attack pattern changes according to the enemy and distance.

Round 4: A duel with tough enemies. The end of the game. And this.
